

FEMA

HURRICANE IDA – Response and Recovery Information

Operation Blue Roof is a priority mission managed by the U.S. Army Corps of Engineers for the Federal Emergency Management Agency (FEMA). The purpose of the Operation Blue Roof is to provide homeowners and permanently occupied rental properties in disaster areas with fiber-reinforced sheeting to cover their damaged roofs until arrangements can be made for permanent repairs. This is a **FREE** service to homeowners. Operation Blue Roof protects your property, reduces temporary housing costs, and allows residents to remain in their homes while recovering from the storm.

The Right of Entry (ROE) is a legal document that allows Corps workers to access your property and assess damage to your roof. The ROE also allows contracted crews to work on your roof.

Operation Blue Roof:

Use your personal Smart Phone to SIGN UP ON THE WEBSITE:

bluroof.us

Or contact our call center at 888-ROOF-BLU (888-766-3258)

- ✓ Sign a “Right of Entry” form allowing USACE Staff and their contractors access to your property to assess damages and install materials
- ✓ Roofs to be repaired may be composed of asphalt roof shingles, metal sheets, or a similar material which lends itself towards temporary repair with plastic sheeting or similar method. Metal roofed mobile homes present unique installation challenges and will be assessed on a case-by-case basis and will be covered if practicable.
- ✓ The home must be your primary residence.
- ✓ Roof damages need to have less than 50 percent structural damage

Eligible Parishes
